LIQUID BREAD.

AN ABSOLUTELY PURE EXTRACT OF
MALT.

A VALUABLE TONIC AND REMEDIAL
AGENT.

INGESTED AND RECOMMENDED BY THE
ENTIRE MEDICAL FRATERNITY.

Of all medicinal preparations that have been put
upon the market in recent years, the extract of
malt has proved itself one of the most valuable
as a tonic and remedial beverage. It has received
the unqualified recognition and support of phy-
sicians, and is freely prescribed by them in many
cases, especially where the nervous or physical
systems have been impaired by disease or over-
work. The house of "DAVID NICHOLSON,"
of this city, has recently introduced a pure malt
extract of high character, made at their request
and under their suggestions by Mr. Adolphus
Busch, and which is popularly known as "NICH-
OLSON'S LIQUID BREAD," from its life-giving
and health-restoring properties. A sample sub-
mitted to Dr. F. L. James was made the subject
of a chemical analysis by him, and the result of
his investigations are given in the appended cer-
tificate:

"W. F. COLE, M. D., National Druggist.—Dear
Sir: Having submitted the Nicholson malt ex-
tract to examination, as requested, I take pleasure
in reporting that I find it to be all that the pro-
prietors claim for it. The results, as shown in the
following summary, are necessarily only approxi-
mate, but are sufficiently accurate for all practical
purposes.

"The specimen submitted consisted of an
effervescent fluid, dark brown in color, and of a
deep ruby color by transmitted light, resembling
to general appearance and behavior a very superi-
or article of porter, its taste was, however,
much milder and more pleasant than porter, be-
ing somewhat sweeter than beer, the sweetness
masked and covered by a very pleasant bitter,
derived evidently from hops. The specific gravity
of a sample fresh from the bottle is 1.023 plus.
Amount of extractive matter in 50 cubic centi-
metres of the fluid is 3.56 grammes, or about 3 per
cent. Amount of alcohol, per cent, is 2.54 plus.
The extractive matter is apparently identical with
the "extractum maltis" of Trommer, or of the
German Pharmacopoeia. It consists almost en-
tirely of malt sugar, dextrine, being free from
fatty acids, etc. The fluid contains a very large
amount of diastase, as shown by the fact that it
easily liquefies an equal bulk of gelatinous starch.
This fact, its low percentage of alcohol, its efferve-
scence, its delightful taste and odor, all combine
to recommend Nicholson's malt extract as being
a most nourishing beverage, and the best article
of the sort that has ever come under my exami-
nation. Respectfully,
F. L. JAMES, M. D., M. D."
